

Newly Diagnosed Breast and Gynecologic Cancer SUPPORT GROUP

This support group is for those recently diagnosed with breast or gynecologic cancer. It often helps to talk with someone who is having the same experience. Peer-to-peer support can prove invaluable in exploring treatment options, and making tough decisions. The 4-week support group serves as a bridge to help you explore options and make peer connections during active treatment and beyond.

Co-facilitated by,

- **Tammie Sherner, RN**
Clinical Nurse Specialist
(Breast cancer survivor for 10 years)
- **Rachael Rogers, RN**
Breast Cancer Nurse Navigator

**Meets the 2nd and 4th
Tuesday of the month**
